COTTON MARKETS

Further Strength Abroad Helps This Side-Political Situation Encouraging.

Situation Encouraging.

Monday Afternoon April 7.

There is still an optimistic feeling regarding political developments abroad, and it is having favorable influence on cotton values. Liverpool today made full response to our advance of Saturday, and this in turn was reflected by further firminess over here. There is some expansion in demand for raw material and feeling to that direction is more favorable. In addition to all of this weather conditions are not ideal and thore is still much delay to be overcome. There is confidence in the success of acreage reduction plans, and apparently some of this is finding lodgment in the breasts of the consumers of cotton.

Much of the credit for the firmness in values was due to the action of the British market, where sales of spois continue indicative of better lugality to the former ance of the British priemier that peace would be ready to be signed by Easter, which is less than two weeks away, inspired courage and perhaps helped silminate bullish feeling. Private advices also told of better inquiry for goods from india and China. Liverpool furtires were due to come 28 to 24 points up, but finished steady and 35 to 43 on, which was fine response to what the American markets did on Saturday. Spots were found prices in the domestic markets were steady and higher, July being up 20 points to 24.25c. There was but little for sale and support was coming from spot people. The weather over the week-end was not so bud, afflough some rams fell in various sections that could well have been done without. The map indicating, the letter being since head-way in many sections. July worked up to 24.45c. There was but little for sale and support was coming from spot people. The weather over the week-end was not so bud, afflough some rams fell in various sections that could well have been done without. The map indications were four than work and planting, the latter being since head-way in many sections. July worked up to 24.4c. when profits hegan to be taken by many traders, resuling in

during most of the day, whereas less than a week ago May was a a premium over July of shout 270 points. This is thought to reflect conflictnce in the strength in the spot department.

But little was done in the old contracts, and trading is expected to get lighter in them each day, as there are only about three weeks left for liquidating them. ing them.

Shots were steady and 25 points higher in New Orleans, with sales 2.472 bales. There was good business in some other centers, with exporters doing most of the buying.

New contracts closed 3 to 88 points up, old 25 to 99 points up.

New Orleans new closed 11 to 68 points up, old uncharged to 132 points up, lode very steady. t lone very bleady. Liverpool is due to come I to 5 points

higher.

In the local market the sale of one large lot, reported as nearly 4,000 hales, swelled the total to the largest figure for one day in a long time. Demand wha more general and feeling was better among holders. Sales reported were 6,700 bales and quotations were unchanged, middling at 28,50c.

MEMPHIS COTTON. Memphia cotton closed steady and unchanged. Midding, 26,50c. Sales 6,750 bales, including 500 previous evening.

NEW YORK COTTON.

NEW YORK, April 7.—The cotton market showed renewed activity and strength during today's karly trading. The opening was firm at an advance of 20 to 50 points on new style months on reiterated reports that the peace treaty would be ready before Easter and a renewal of tradic buying. There was Southern selling and a good deal of realising, but offerings were readily absorbed by the broadening demand, with new style May selling up to 26.5% and October to 22.5%; or 22 to 57 points net higher, before the end of the first hour, old style months were very irregular, opening 39 points higher to 45 lower and later ruling about 25 to 39 points above Saturday's closing. It was reported that Saturday's buying of October by trade interests was to coverhedges against spot sales for export against spot sales for export

There were reactions of several points during the middle of the morning under reasizing and Southern selling, with the near months relatively easy as scattering long accounts were being transferred from them to later deliveries (afferings were well taken on the settoric however, and the market showed renewed firmness during the middle of the day on reports of a more

Peace Causes Upturn.

NEW YORK, April 7.—Traders evidently were disposed to place a favorable interpiration on events over the week-end, especially the reported progress toward an agreement on the peace troaty, and prices at the opening of the stock exchange today rose accordingly flams of 1 to 3 points in the first half hour were impartially distributed among shippings, motors and their specialties, also leathers, oils sugars, tobaccos and fertilizer and chemical issues. United States Steel advanced a point, but leading ratis held within restricted limits. Southern Pacific, Marine preferred and oil, chemical and fertilizer issues at gross gains of 2 to 4 points featured the final bour, profit taking causing reactions of 1 to 2 points among other leaders. The closing was strong.

The low rate for call money was conductive to the further advance of the noon hour, in which rails and coppers shared, also Baldwin and American Locomotives and New York Airbrake. American International continued the dominant feature, however, extending its gain to almost ten points.

Chicago—Corn was under pressure early, but raillied quickly when the selling ceased. The deferred deliveries have shown a relatively strong undertone. There have been some hedging sales in the May, against purchases to arrive from the country, which later continued to offer corn freely. Visible supply increased 64,000 busheis for the week, which was the first gain in some time, but stocks are still far below normal. This is the first day in some time that oats have displayed independent strength. Provisions were dull but firmer in sympathy with hogs. The live animals rose to a new top level for 1919.
